

# THE CORE<sup>®</sup>

## COOPERATIVE

THE WORLD'S MOST POWERFUL TELECOM PURCHASING COOPERATIVE

The CORE<sup>®</sup> Cooperative combines the world's only independent exascale data center ecosystems with the world's most powerful telecom infrastructure, to offer clients a competitive advantage that is truly unmatched.

Cooperative purchasing power is achieved by combining the telecom orders of hundreds of clients and thousands of circuits. The collective telecom purchasing volume enables significant savings for co-op members.

### THE CORE COOPERATIVE BENEFITS

Access to 50+ providers at competitive pricing & wholesale rates

Full telecom services including network design, installation and project management

MPLS, IP, Transport, Voice, and SD-WAN (circuits do not have to terminate at Switch)

Customizable direct connections to any location (international services available)

Consolidated billing with a single monthly invoice for all carrier services
